CENTRAL DRAINAGE AREA SEWER REPLACEMENT
Town of Colonial Beach, VA

The Town is experiencing significant inflow and infiltration (I&I) in the Central Drainage area of the sanitary sewer system during rain events. In particular, the manhole east of the intersection of Colonial Ave and Washington Ave has repeatedly overflowed during rain events. Dewberry Engineers recently developed a hydraulic sewer model of the Central Drainage Basin to evaluate the existing sanitary sewer capacity (primarily during wet weather events), evaluate flow projections for known development projects, and recommend immediate capacity improvement needs. The model validated the sanitary sewer overflow at the manhole with a simulation of a rain event.

Sealed proposals will be received for the procurement of professional services including design, bidding, and construction phase services for the replacement of approximately 2,500 linear feet of existing 8-inch and 10-inch diameter gravity sewer main with 12-inch diameter pipes and replacement of ten (10) manholes along the following Town roads: Colonial Ave, Washington Ave, Dennison St, and Beach Terrace.

Sealed Proposals will be received by India Adams-Jacobs, Town Manager, Town of Colonial Beach, at 315 Douglas Avenue, Colonial Beach, VA 22443 until **Friday, October 1 at 2:00 PM** local prevailing time. Proposals must be submitted in a sealed envelope with the outside marked in the lower left hand corner as follows: RFP# INI-PE-CDA-SWRIMP-FY22-01 CENTRAL DRAINAGE AREA SEWER REPLACEMENT.

Proposals must be submitted by the date and time indicated above or they will remain unopened. No allowance will be made for postmark or error in delivery to an incorrect address. It is the sole responsibility of the proposer to ensure timely delivery of the proposal. If proposals are mailed, send directly to issuing agency shown above.
